

PCD Milling Cartridges

Features

- Designed to fit into milling cutters for machining of aluminum and non-ferrous metals
- Various blade geometries such as wiper, negative land, and chip breaker
- High edge sharpness
- Various grades of PCD
- PCD dimensions and nose radius on request

Applications

- Suited to roughing and finishing of aluminum and non-ferrous metals in various fields such as automotive industry, aerospace, and aluminum foundries.

PCBN milling cartridges are also available on request.
